

Cloud Analytics using

MICROSOFT FABRIC

EMPOWER YOUR TEAM TO ANALYZE UNIFIED DATA FROM ANYWHERE

Leverage your data fully with Microsoft Fabric, a solution designed to consolidate your data from multiple sources, enhance your analytics capabilities, and maximize your investment in Power BI.

DISCOVER MS FABRIC CAPABILITIES WITH SII

MS Fabric in a Month

Our Data & Analytics team will implement a Pilot of full end-to-end analytics on the Microsoft Fabric platform.

- Connect one of your data source systems and transform the data into a Power BI report.
- Build the necessary back-end infrastructure, ensuring smooth data integration and reporting.
- Up to \$8,000 in Azure Innovate Partner-Led funds to cover the PoC costs*

ADDITIONAL SERVICES

- ✓ **Azure Cloud Assessment.** Technical analysis and cost estimation to move to Azure Services
- ✓ **Infrastructure and Database Migration.** Support with the migration of Databases and servers to the Azure
- ✓ **Consumption Optimization.** Through architecture design, best practice implementation, and costs saving options
- ✓ **Cloud Service Management and Support.** Dedicated support for the Azure platform and solution delivered by Sii
